Answers

p. 191 – 207

Award

p. 208

POPULAR USA

A. Read Sally's diary entries.

Dear Diary

Dear Diary,

We just moved here, to our new home in America. I am so excited to be living in this beautiful country. It is the first day of spring. The grass is turning a lush green color. The tulips in the flower beds are poking out their heads, just waking up from their long winter's sleep.

In the park, people are riding their bicycles and walking their dogs while inhaling the fresh spring air. I know that I am going to love this country. Summer is around the corner and I can hardly wait to experience a true American summer.

Dear Diary,

Today is the first day of summer. I love America more and more each day. All of the gardens are in full bloom and the shade of the trees is a welcoming sight.

I have made some new friends and our favorite activity is running through the sprinkler. I have learned to play baseball and I am getting better at in-line skating each day. I understand that fall will bring a reprieve from the heat and I can't wait to see what else comes with this season.

Dear Diary,

Today is the first day of fall. I think that America is the most beautiful place on Earth. The leaves have turned red, yellow, and orange. I went for a ride through the majestic countryside and saw some deer darting into the forest.

My friends and I got together to rake the leaves. We had a terrific time frolicking in the leaves. Next week we're going on a hayride and at night, we'll have a bonfire. I can't imagine what surprises are in store for me this winter. I can hardly wait to see snow for the first time.

B. Do what the puppy says. Then write a diary entry for the winter.

Write three things Sally had not tried before moving to America.

- _____
- _____
- _____

Pretend that this winter was your first time seeing snow. Write in your diary using descriptive language to paint a picture of things you see and experience this winter.

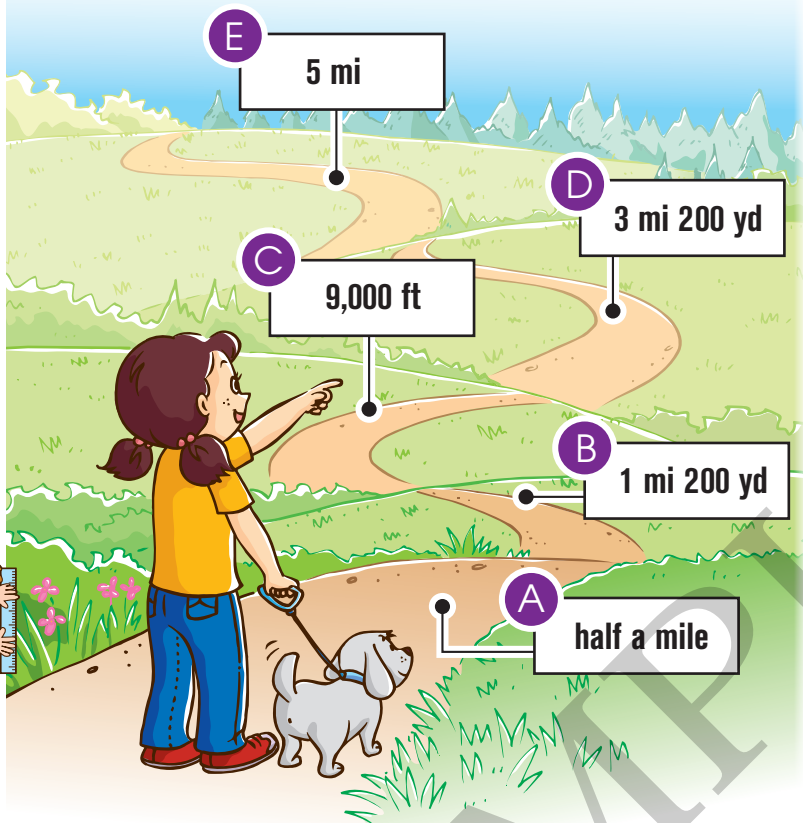

Dear Diary,

Today is the first day of winter. I could hardly believe my eyes when I looked out of my window this morning. _____

POPULAR USA

A. Susan walked her dog along the trail. Help her write the distance she traveled in yards. Then find her traveling times.

1.

Hint:

1 mi = 1,760 yd

1 yd = 3 ft

Length of Each Section of the Trail (yd)

A _____ yd

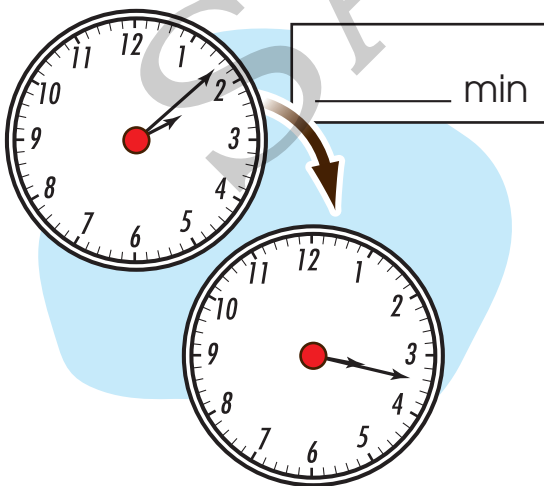

B _____

C _____

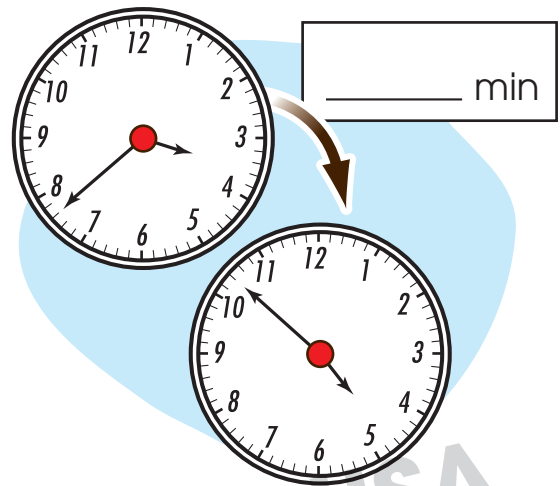

D _____

E _____

2. From Point **A** to Point **C**:

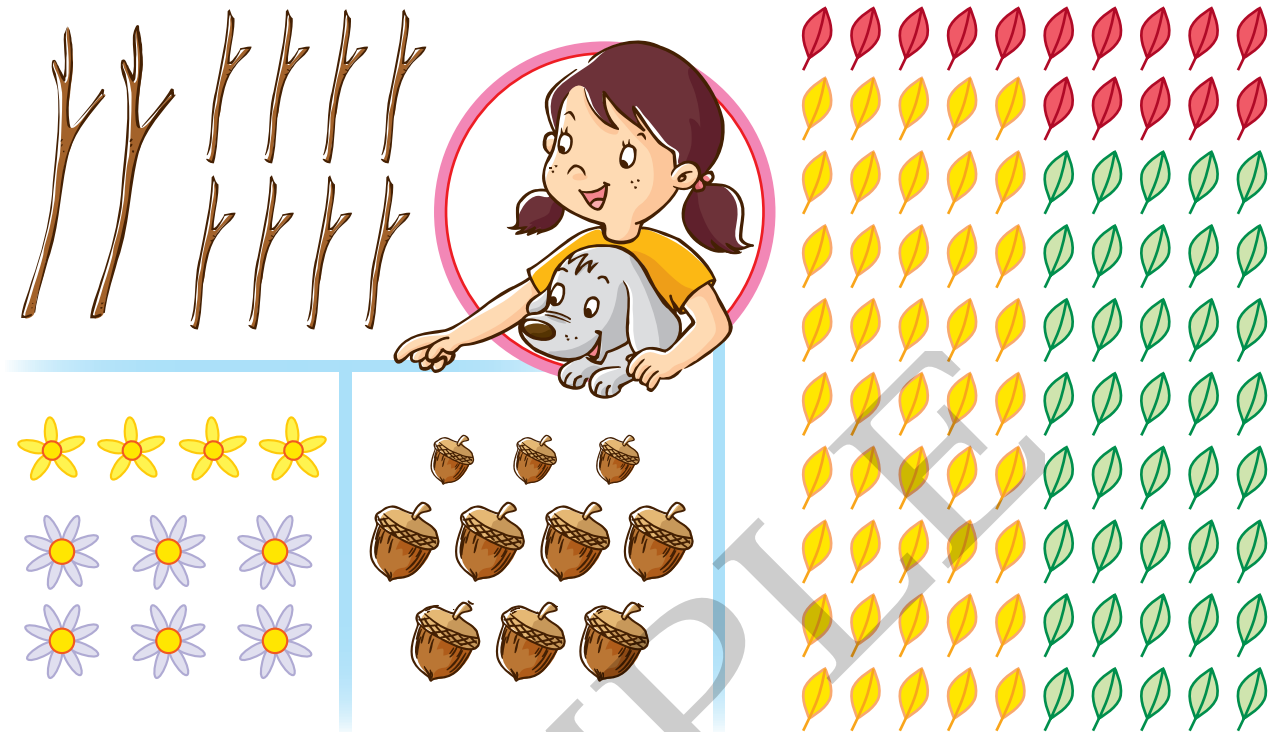

3. From Point **C** to Point **E**:

4. The total time it took Susan to walk along the trail was _____ min, or _____ h _____ min.

B. Susan saw a lot of natural things along the trail. Look at the pictures. Help Susan complete the sentences with decimals and fractions.

1. 0.2 or $\frac{2}{10}$ of the sticks were long.
 _____ or _____ of the sticks were short.
2. _____ or _____ of the flowers had 5 petals.
 _____ or _____ of the flowers had 8 petals.
3. _____ or _____ of the acorns were big.
 _____ or _____ of the acorns were small.
4. _____ or _____ of the leaves were red.
 _____ or _____ of the leaves were green.

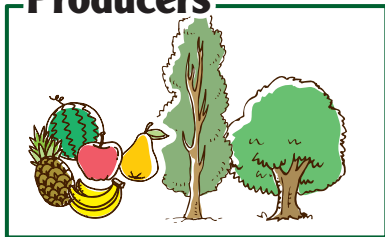

5. _____ or _____ of the leaves were yellow.

A. Fill in the blanks to complete the description of each term. Then label the organisms in the picture with the correct terms.

food energy recyclers bacteria
cannot air nutrients

Producers

- make their own _____ using energy from the sun, water, soil, and _____

Consumers

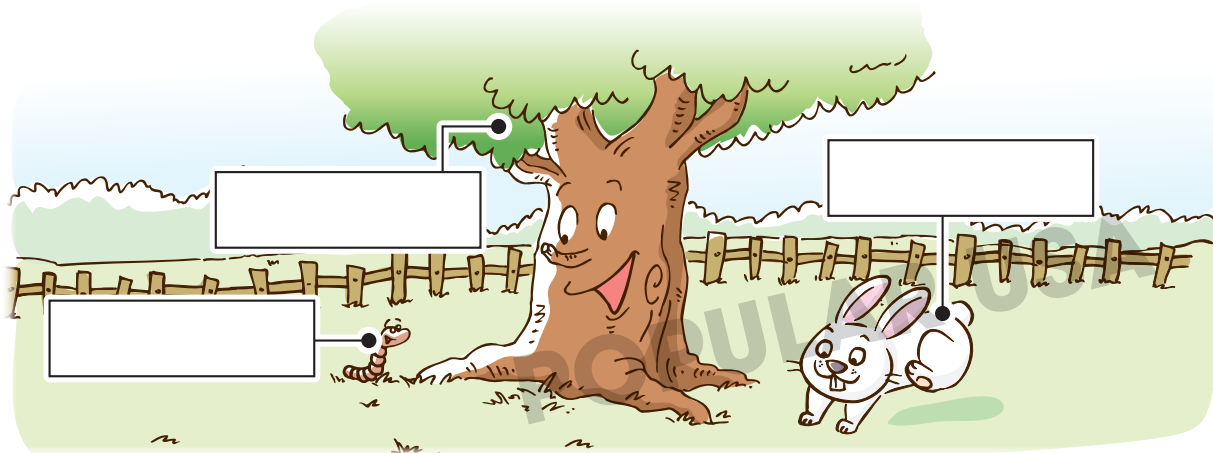

- _____ produce their own food
- feed on plants and other animals to get _____

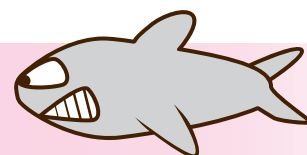

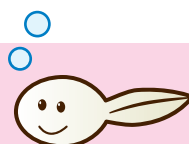

Decomposers

- are nature's _____
- include _____, mushrooms, and earthworms
- break down dead plant and animal matter, and return them to the soil as essential _____ for plants

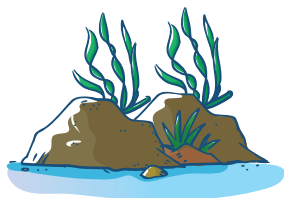

B. Draw the missing organism in each food chain.

1. A food chain in a forest

2. A food chain in a pond

3. A food chain in a backyard

4. A food chain in an ocean
